

# CytoFlor™

## PLANT GROWTH REGULATOR

### A New 6-BA Plant Growth Regulator for the Horticulture Industry

CytoFlor® is a powerful Plant Growth Regulator (PGR) that greenhouse and nursery growers can benefit from having in their toolbox. CytoFlor® contains 6-benzyladenine (6-BA) as its active ingredient. 6-BA is a potent plant growth regulator belonging to the group of growth regulators known as cytokinins.

CytoFlor® promotes flowering in certain ornamental crops and increases lateral or basal branching. Additionally, applications of CytoFlor® are known to reduce the overall height of specific plants resulting in more compact and marketable plants.

#### Benefits:

- Promotes Flowering
- Increases Number of Flowers
- Increases Lateral or Basal Branching
- Contributes to Compact, Marketable Plant
- Removes Undesired Fruit from Ornamental Apple & Pear Trees

#### NET CONTENTS

1 Quart (946 ml)

<b>Active Ingredient:</b>	
6-benzyladenine (6-BA) .....	1.9%
<b>Other Ingredients</b> .....	<u>98.1%</u>
<b>Total</b> .....	<b>100%</b>
