

Azera® Gardening

Organic Gardening

azera® Gardening

Multiple modes of action deliver a one-two punch

MGK's Azera® Gardening is an ideal solution for hard-to-kill insects. It is made from two distinctly powerful active ingredients from botanical sources that knock down the pests and kill them either by contact or by ingestion. It kills both hard-bodied and soft-bodied insects, from aphids to beetles.

Azera® Gardening can be used on ornamentals, leafy vegetables, fruit and nut trees, annuals, perennials, trees and shrubs. Azera® Gardening is made with botanically-derived active ingredients that are very effective at killing garden pests.

Azera® Gardening Features

- For organic gardening and production
- Quick knockdown, kill of hard-to-kill insects including aphids, beetles, caterpillars, whiteflies and leafminers
- Kills listed pests through contact or by ingestion
- Kills larval, pupae, and adult stages of listed insects
- OMRI listed and meets USDA's NOP requirements
- Contains Pyrethrins and Azadirachtin, two of the most effective insecticides used by organic gardeners
- Available in three sizes: 8 oz., quart and gallon
- One pint makes up to 16 gallons, depending on the application

Tips for best use

- Apply Azera® Gardening only as specified on the label
- Do not apply more than one time per day or more than 10 times per season
- In case of extreme pest pressure, do not apply within 24 hours
- Do not make applications in the rain
- Do not allow adults, children or pets to enter the treated area until sprays have dried
- Do not wet plants to the point of runoff or drip
- Do not use in outdoor misting systems
- Store in cool, dry location out of direct sunlight to ensure maximum shelf life

Azera® Gardening, the one-two punch for the most hard-to-kill pests.
