

PyGanic® Specialty

Organic Production

PyGanic® 

SPECIALTY

*Labeled for use on over 200 crops,
herbs and ornamentals*

MGK's PyGanic® Specialty rapidly knocks down and kills pests in greenhouse and nursery. PyGanic® Specialty kills a broad spectrum of insects from aphids to whiteflies and can be used on ornamental plants, vegetables, fruit and nut trees.

PyGanic® Specialty is made from botanically-derived active ingredients – pyrethrins, exacted from chrysanthemums – and is very effective at killing garden pests.

PyGanic® Specialty Features

- **For Greenhouse and Nursery production**
- **Rapid knockdown and kill of 100 insects including aphids, beetles, caterpillars, fruit flies, gnats, leafhoppers, moths, whiteflies and more**
- **Flushes insects and mites from hiding**
- **OMRI listed and meets USDA's NOP requirements**
- **Contains 5.0% Pyrethrins**
- **Available in quart and gallon sizes**
- **Higher concentration of Pyrethrins is better suited for large-scale applications and high volume users**
- **One pint makes up to 16 gallons, depending on the application**

Tips for best use

- Apply PyGanic® Specialty only as specified on the label
- Do not apply more than one time per day or more than 10 times per season
- In case of extreme pest pressure, do not apply within 24 hours
- Do not make applications in the rain
- Do not allow adults, children or pets to enter the treated area until sprays have dried
- Do not wet plants to the point of runoff or drip
- Do not use in outdoor misting systems
- Store in cool, dry location out of direct sunlight to ensure maximum shelf life
